THE PRODUCT

eSoftwareSystems.com is a website and software development and design company with a focus on small business consultation and automation through implementation of either proprietary or third-party software solutions. This agreement is for a service provided by eSoftwareSystems.com to implement a third-party service and does not include any proprietary design or development, specific training on the product, or support as all of these services and products are wholly owned, hosted, operated and supported by Microsoft Corporation. "You" understand that the product being implemented is not in any way in the control of eSoftwareSystems.com and that all parts and use of the software are subject to their respective Terms and Conditions or Terms of Use as set forth by Microsoft Corporation. The product is called Microsoft Office Live and is a hosted web service and product through Microsoft Corporation. You further understand that Microsoft Office Live is a free service for small businesses and can be implemented by the small business owner or a hired associate or employee of the small business owner without cost of implementation through eSoftwareSystems.com. eSoftwareSystems.com understands that most small business owners prefer to compensate for professional setup services to avoid the learning curve of new software applications or a delay in the implementation period. You understand that the fees charged by eSoftwareSystems.com are a one-time fee only and that there will be no recurring monthly charges by eSoftwareSystems.com. You understand that the software is a web-based application hosted and supported by Microsoft Corporation and you understand that you should seek training and product support from www.Microsoft.com or contact Microsoft at their headquarters in Redmond, Washington, USA for any information. You understand that Microsoft Corporation is neither a partner nor officially endorses eSoftwareSystems.com. You understand that Microsoft Corporation allows developers and designers such as eSoftwareSystems.com to charge for labor hours of setup for the Microsoft Office Live system but are not allowed to charge for the service itself. You understand that Microsoft Office Live is a free service for the first 5 users and Microsoft may charge an additional fee for additional users. You understand that Microsoft Office Live is a free service for the first 50 MB (megabytes) of document storage and may charge additional fees for additional storage space. You understand that 50 MB may be equivalent to approximately 2000 1-page, Microsoft Word Documents or 2000 1-page, Adobe PDF Documents. You understand that all future billing for added users or added storage is a transaction between you and Microsoft Corporation and eSoftwareSystems.com does not handle collections or billing for these services. You understand that the setup fees charged by eSoftwareSystems.com are for actual hours of labor by a human being and are therefore non-refundable as time is irreplaceable. You understand that while eSoftwareSystems.com does offer full or partial refunds for pre-packaged solutions and products, the setup service for implementation and setup of Microsoft Office Live is not one of these products and therefore does not qualify for a refund of any kind. Furthermore, you agree not to dispute or refuse charges of any kind or request a chargeback from your card provider once the setup service has been completed. You understand that Microsoft Office Live is a product and web service provided by Microsoft Corporation and that there are an abundance of resources to assist you with your training and other learning and support related needs. eSoftwareSystems.com is willing to provide training on the product for an hourly rate to be determined during a consultation and will depend upon the extent of the training. All training by eSoftwareSystems.com can be either on-site or via the telephone and internet to accommodate your needs. eSoftwareSystems.com can also create custom solutions for you if you need added power and functionality for an additional hourly rate to be determined on a case by case basis during each feature's consultation.
